## SUMMARY

I am a front-end developer with a strong foundation in creating user-friendly and responsive web applications.

My skills include working with various front-end technologies to craft visually appealing and functional interfaces. I am eager to take on new challenges and expand my horizons within a dynamic, growth-oriented organization. My goal is to leverage my passion for coding to develop practical and impactful solutions in web development.

## EDUCATION

### University of Gujrat

Bs (hons)  
2017 – 2021

### KIPS collage Gujranwala

Intermediate (F.SC)  
2015 – 2017

## SKILLS

- HTML
- CSS
- SASS
- BOOTSTRAP
- MATERIAL-UI
- JAVASCRIPT
- REACTJS
- REDUX
- GIT
- Tailwind

## CERTIFICATIONS

## PROFESSIONAL EXPERIENCE

### Frontend Intern

Innovate technologies | October 2022- December 2023

- Created and styled website parts using ReactJS, following modern design principles
- Effectively managed component states to create dynamic and responsive web applications, ensuring seamless user experiences
- Collaborated closely with UX/UI designers to seamlessly integrate visual concepts into functional code, resulting in visually appealing and user-friendly interfaces

### Projects

#### Welfie

- Work on the website that holds users' health data and provides warnings about potential health risks
- Different communities and blogs help users improve their health
- Project Stack: Reactjs, styles-components, JSS, Material UI, NodeJs
- Contribution: styles the pages and components, responsiveness

#### SpiceCraft

- Built a React.js web app that enables users to create, save, and explore recipes
- Utilized Supabase for the backend and Bootstrap for styling to ensure a responsive and user-friendly experience.
